Dr. C. Imrie,

Pathological Building,

University of Toronto.

Dear Dr. Imrie:

After consulting with the members of the Committee on the Residences this afternoon I have decided to ask you if you will occupy the East Residence as Adviser to the students for the coming winter. In holding this position you will be representing the Faculty of Medicine. If you wish to see me in regard to the matter at any time, I shall be glad to have an arrangement made as to time. You understand that the room is put at the disposal of the resident but he arranges for his own meals.

Yours sincerely,

President.

Hon Sir Robt Falconer

Dear Sir:

Some years ago I was a student in Toronto U. - I have just put my boy into a College Preparatory School and am on the look out for the best place to send him to College. I am a Canadian myself. However as a young man I left Toronto University because of the fact that at that time they had so very few "recitations" almost every thing being "Lectures" even to Geometry. I did not feel that we got the drill that comes from the daily reciting. Another thing that showed me was the little amount of study done by the great mass of the students during the term from Oct to Febry - after which date a Syndicate of

Cram began for examinations. Since moving to Denver I happen to have belonged to a church which has had two Pastors from Toronto U. while my Attij is also a Toronto Arts man. I've been struck with the thing both these preachers never got down to a Sermon for Sunday until Saturday and this Attij never looks any thing up until the last minute. I'm wondered if the University method of no study the first half of the Year had any thing to do with it forming a habit of that type. Both preachers looked about two years each in this church. - The American Colleges are so filled with Fraternities that I hesitate to send my boy to their influence what I know is not good.
(1) Will you kindly inform me if Toronto is Still free of Fraternities
(2) Also is there more class room work in the way of daily recitations.
(3) Does the loafing the first half of the Year still apply? I shall appreciate your reply greatly
Yours Sincerely John Simpkin 9.7.19

Professor Gilbert H. Jackson,

University of Toronto.

Dear Professor Jackson:

Owing to the return of Professor Gilchrist from overseas there is only one vacancy for the members of the staff in the Men's Residences. According to our previous practice, which has been to assign one of the positions to a member of the staff in the Faculty of Medicine, I have to-day asked Dr. Imrie of the Department of Chemical Pathology to take the position. I regret therefore that there is no likelihood of our being able to grant your application for a position for the forthcoming session.

Yours sincerely,

President.

Sir Robert A. Falconer, K.C.M.G., M.A., etc
President
University of Toronto

Dear Sir,

I very respectfully beg to be permitted to petition to You for assistance in the matter of seeking entrance into the Faculty of Medicine.

I am well aware Sir, that this is not the ordinary way for seeking admission to any Faculty of the University but as my Case calls for a consideration which, to a great measure, would depend on Your recommendation I sincerely pray that You overlook the Course I am taking. It may be well to state, that I have travelled all the way from Trinidad B.W.I. to this Country to achieve the profession of my Choice and my difficulties and disadvantages are, by no means, limited.

My present difficulty is in connection with the requirements necessary for my admission. While I can satisfy these requirements, it is unfortunate that the necessary evidence is not

not in a collective form, and the concession for which I am not praying is a little divergence from the standing rules of the University, and the special consideration of my case. In Trinidad, when a boy, I attended the St Mary's College at which I obtained standing equivalent to the Junior Cambridge. Having left College, I became a Clerk in the Government Railways, remaining in that Capacity for nine years. At the end of that time, I came to Toronto to study. In my attempt to matriculate for University I obtained standing in eight of the twelve papers required for Junior Matriculation; failing in Science and Mathematics. Instead, however, of trying to get standing in these two latter subjects and enter Medicine, I entered last year on the General Course in Arts with the hope that I would receive a better educational training in the first year than that afforded by the Junior Matriculation. For me, the year was very eventful for apart from the interferance by the Influenza Epidemic of the College term, I was also a victim of the same and my studies, therefore, suffered considerably. In the May Annual examinations, I made pass

pass marks in three of the six subjects of the first-year, General Course; viz English, Biology and Mathematics. In September I tried again and, though I did not pass on the whole examination, I expect that I made pass marks in two of the three subjects which I failed in the May examination; viz Latin & Spanish.

During the Summer I was engaged in work as a means of preparing myself financially for the next College term and, therefore, I could not really devote sufficient time to study.

In view of the facts stated, I very humbly beg that: in as much as I have standing in eight papers of the Junior Matriculation, and also made pass marks in those subjects of the first-year arts (Biology and Mathematics especially) which, considered together would more than compensate for the Junior Matriculation standing, I be allowed admission to the first-year in Medicine. If my effort to obtain this concession were to fail, I would be compelled to repeat the first-year in Arts, and the loss to me of a year's time & expense could not be over estimated.

I earnestly pray Sir, that You will deem it worthy of recommending me for the Concession.

While I remain Your humble petitioner,

A. G. B. James

I hereby certify that Mr Arthur James is personally known to me. He is a young man possessed of a sound educational foundation and gentlemanly habits; ambitious and very ------- industrious. His aim in life is to qualify for the medical profession for which purpose he has expressly given up his employment as Clerk in Trinidad Government Railway Department and left his native land, to enter a University. I have no doubt, that, the opportunity being afforded him, Mr James is bound to reach the goal of his ambition.

Mr. A. G. S. Janes,

Dear Mr. Janes:

I have gone into your case with the Registrar of the University and have asked him to consider it as sympathetically as possible. He informs me that the Committee went very carefully into your case and that they are of opinion that it would be a mistaken kindness to allow you to enter the Faculty of Medicine under a handicap, which you would undoubtedly have, with your present standing.

His advice is that you should this winter endeavour to get work and come to the University as an occasional student taking classes in those subjects that you require to prepare yourself to enter Medicine. This advice he gives not merely to fulfil the terms of the entrance requirements but in your own interest.

Yours sincerely,

President.

Dear Principal Jones:

I am glad to know that you are interested in our new course in Commerce. However, the subject of typewriting and stenography is not to be taught by the University. In fact it will only be required for those who will qualify for the Commercial Specialist Certificate to be awarded by the Department of Education, and the preparation for this may be got any where, if the standard of attainment is sufficiently high.

Dear Mr. Jarvis:

I feel that I know so little about the motives that have induced the Government to suggest that the Admiralty should become a component part of a National Ministry of Defence that it would be quite out of the question for me to join in a protest. I think that you have worded your resolution very carefully, but at this distance for an outsider like me it is impossible to form an opinions as to the merits of such a case.

Dear Mr. President:

I am sending you herewith a Resolution passed unanimously by the Council of University College. A special Committee appointed by the College Council investigated Queen's Hall matters, met both the Dean and the students several times, and this is their finding.

The Council itself held several special meetings, and after a full discussion adopted the resolution without a dissenting voice.

-o--o--o-

1. That in the opinion of your Committee the position of the Dean of Queen's Hall should be an academic appointment, the nomination to which should be in the hands of the President.

2. That in the opinion of your Committee the root of the trouble at Queen's Hall lies in a general incompatibility, lack of sympathy and co-operation between the Dean and the students.

3. That the only solution of such difficulties presumably lies in the resignation of the Dean.

President R.A. Falconer,

Toronto University,

Sir,-

Some days ago the Press contained a statement of a movement which is now on foot on the part of the Canadian Universities to secure financial assistance for university students who have served overseas. In this report only soldiers are mentioned, there being no reference made to sailors. Would you kindly let me know if it is the intention to include sailor students among those for whom government aid is sought?

Like the writer, there are no doubt many medical undergraduates of Canadian Universities who have served as volunteers in the British navy in the capacity of ~~Surgeons~~ Probationers and who have lost one or more years of their course in addition to considerable financial sacrifice. Consequently we hope that sailor students who have seen overseas' service will be included among those to receive government aid to complete their Course.

Hoping that this well-conceived movement will meet with success, I am,

Sincerely yours,

Francis E. Jones.

My Dear Sir;

Of course if the government decide to give aid to soldier students there can be no doubt that they would give it also to those who served in the navy. It was an oversight on my part that the sailor students were not mentioned. I am afraid however that the Government is not very favourable to the proposition, and will not act unless public opinion proves to be strong.

DISPOSAL OF
SURPLUS STORES.

Sir,

I have the honour to advise you that an Auction Sale was held on September 1st, 1919, of certain Dental and Surgical Equipment and Material, with which was included a quantity of stores - the property of the University of Toronto.

Included in this lot were several cases of Adhesive Plaster - Lots 303 and 304 - which the purchaser reported as being absolutely worthless. I, therefore, instructed the purchaser to return the stores to our Central Depot, and had same examined by the Officer i/c C.A.D.C. The finding of this officer is attached herewith for your information.

I have to-day instructed the Director General of Medical Services to destroy this worthless plaster, and forward you this information for completion of your records.

I have the honour to be,

My dear Sir Falconer:-

In accordance with the suggestion of Secretary Clyde Furst, of the Carnegie Foundation, I am writing to arrange, if you so desire, for an opportunity to explain to the members of your Faculty the advantages for teachers offered by the Teachers Insurance and Annuity Association. I may say that I would do this as a representative of the Carnegie Foundation which has organized the Association.

Certain of the details in connection with different types of insurance policies, and with different types of annuities, require personal explanation which I would be very glad to give.

I would suggest Thursday afternoon or evening, March 25, if that date suits your convenience.

Dear Mr.Kerr;

You will remember that the canvass in Toronto for the University War Memorial Fund was suspended last Monday by reason of the bringing on of the "Big Four" Campaign. We have decided to resume our canvass as soon as possible and to have it completed before the Victory Loan Campaign opens at the end of October. In order to make our efforts a success we need the fullest co-operation of our friends, who realize the great importance of this Memorial Fund. On account of the interval some changes in the organization have become necessary, and we must secure strong men to lead our committees. Our Executive Committee is very anxious to have you undertake to act as Captain of a Team. I hope you will be able to participate with us in this way in order that we may realize our expectation of providing a memorial that will show our appreciation of the sacrifices of our fellow Alumni and the students of this University.

You will hear from Mr. Cassidy immediately as to the time and place of the meeting of the leaders.

Sir:

The one hundred and fiftieth anniversary of the founding of Dartmouth College occurs this year.

It seems particularly fitting and desirable, at this time, that the educational fellowship between the United States and Canada should be emphasized by participation on the part of the University of Toronto in celebration of the event.

I have the honor, therefore, in behalf of the Trustees, to invite your personal presence as a guest of Dartmouth College from Sunday, October 19, through the night of Monday, October 20, the period of the formal exercises.

If, at your early convenience, you will inform me as to your intention, I shall be happy to notify you, in due course, as to the details of plans for your reception and entertainment.

You will believe me, sir,

Sincerely yours,

Executive Secretary

Dear Mr. Keyes:

I have to thank you very sincerely for the kind invitation of the President of Dartmouth College and the Executive Committee to represent the University of Toronto at the 150th Anniversary of the founding of Dartmouth College. I appreciate particularly the invitation at this time and being asked as a representative of the Universities of Canada. I regret very much, however, that a long standing engagement makes it impossible for me to be present. I promised some months ago to take part in a Conference on Moral Education which is to be held in Winnipeg from October 20 - 22. I must therefore ask you to accept my sincere regrets at being forced to decline your invitation. I have heard a great deal about Dartmouth and have often wished that I could visit it, and it is most unfortunate that when the opportunity has been afforded me I am compelled by circumstances not to be able to avail myself of it. I hope that you have a very successful celebration, and remain,

Yours sincerely,

Sir Robert Falconer
Pt. Toronto. University
Dear Sir Robert.

Now I am writing you on a very important matter, and desire, that it be given a free thought upon all angles, and to the point. My Brother Wrote me from Trinidad B.W. Indies. to know of me. What College or University I consider fit and proper to send his Boys. Whose Education is now being given at the Queens Royal College there. They are taking up their Senior Cambridge. this year which will enable both boys to have a better advantage here on entering College. Now I must first Warn you of the fact, that they are Coloured both Boys: and I am aware of what they are up against, being in

Canada myself for the past ten years, but if every man of Color could resist the Scorn and treat it with Contempt, believing that in God's hand rests the future, then he will gain the Aim in View. The point is to what School College or University would you be good Enough to recommend.

One of them will take Holy Orders and the Other the Bar, or Civil "Engineering", it has not been quite decided as yet. The Family have all been Educated in London England, but the Father would like these Boys to Come to Canada, therefore on that point I now Claim the advice of you. Kindly return this letter with your Answer so that I can convey the same to my Boys there to see what I wrote them, now, may I ask before concluding whether

You are the Falconer who was in Trinidad in the 80's and who won the Highest Honours ever taken there in the Cambridge Examinations, if so, your Father the Rev. Falconer the Presbn Minister did a lot for me in those days. I hope you are the Son to Rev. Falconer who was a Father to me.

Awaiting your reply.

I am Sir Robert Falconer

Yours faithfully

Henry P. King, Esq.,

Dear Mr. King:

I am much interested to hear from you. I am the Falconer whom you remember and my father was the Presbyterian Minister to whom you refer. Naturally I should like to do anything I can to help your friends.

I have considered carefully the question that you propose and I believe that your brother's boys would receive in Toronto the education they desire. If they have the Cambridge Senior Local examinations in the subjects of Matriculation they would be accepted in the University at once.

As one of the sons is looking forward to Holy Orders I think it would be well for him to communicate with Principal O'Meara of Wycliffe College and he could probably get accommodation in the College during his Arts course.

The other brother, who is turning you say either to Law or Engineering could at least get Arts training in Law here and then take his course in Osgoode Hall, though I suppose it would not give him the privilege of practise in Trinidad. Perhaps he could take his Law course afterward in London. If he decided to go in for Engineering he could get a thorough and complete course in Engineering in our University.

I shall be glad to do anything I can for you further.

Yours sincerely,

President.

J. Howard King, Esq.,
5e Edward Street,
Port of Spain,

Dear Mr. King:

I am glad to know that your boys are looking forward to coming to the University of Toronto, but I do not think that either of them should enter until he is eighteen years of age. The elder boy you say is looking forward to taking law. In that case he should probably enter upon the Political Science course in the University, unless he takes what we call the English and History course with the Classical option. For either of these honour matriculation is required. In political Science: English, History, Mathematics, Latin and one other language, and in the latter Greek, Latin, English , Mathematics, with the recommendation that either French or German also be taken.

I am of opinion that high honours in the Cambridge Senior Local Examinations would be the equivalent of the honour standing we require for these departments.

Your younger boy has still a number of years to go and of course there may be changes in our medical course by that time. At present the course is six years, and with entrance at Junior Matriculation. The standing of Junior Matriculation would be a pass certificate in the Cambridge Senior Local Examinations.

I am sending you the calendars for Matriculation, Arts and Medicine, and will be very glad indeed to give you any further suggestions that may be helpful.

It has been a pleasure to be reminded through you of my father, and of course a great pleasure to know that you cherish his memory so warmly.

Yours sincerely,

President.

Geo. A. Kingston, Esq.,

President, International Association of Industrial

Accident Boards and Commissions.

My dear Mr. Kingston:

I have to thank you for your letter bringing to my attention the Convention that is to be held from the 23rd to 26th of this month, and asking whether or not the University will be represented. I will request Professor Mavor to have some member of our staff in Economics appointed so as to be in attendance.

Yours sincerely,

President.

Professor Oskar Klotz,
University of Pittsburgh,
Pittsburgh, Pa.

My dear Dr. Klotz:

It was very kind of you to send me your articles contributed to various scientific societies. I am sure that it is an evidence of very fine work on your part, and I congratulate you on having been able to make such a good showing. I will hand these over to Dr. Duncan Graham as he will doubtless be interested in your results, and they may have some particular bearing on his work.

I hope that you have had a successful winter and that both Mrs. Klotz and yourself are in good health. I know that my wife would join me in kind regards did she know I was writing to you.

Yours sincerely,

President.

Chancellor Kirkland,
Vanderbilt University,
Nashville, Tenn.

My dear Chancellor:

Your very kind letter reached me yesterday. It would be a great pleasure to me to be able to accept your invitation and to visit Vanderbilt University next June and deliver your Commencement Address, but unfortunately I have an important engagement which will render it quite impossible for me to be with you. I have to preside at the Royal Military College at Kingston as Chairman of the Board of Visitors at the beginning of that week for two days, and I could not get away in time to make connections for Nashville. I have already promised to address the Northwestern University on June 16th, and though it might be difficult for me to be away in two consecutive weeks, if I had not had this engagement at Kingston I should have endeavoured to visit you also. Anticipating the pleasure of seeing you before very long, I am,

Yours sincerely,

President.
